

Student Emergency Food Pack

Emergency food packs are an important part of our school's Emergency Preparedness Plan. If a significant earthquake or other major disaster occurs during school hours you might not be able to pick up your child(ren) for several days if local roads are damaged.

An emergency food pack is a supply of nonperishable foods. Please put your child's preferred food into only (1) one gallon clear zip-lock bags. All packaged food should be sealed in their original containers to prevent spoilage and should be able to be opened by hand and eaten as is. Also, please include enough food and drink to sustain your child for three (3) days. The packs will be kept on campus during the school year and sent home in June.

If your child requires ongoing daily medication, please bring a three-day supply in an original labeled prescription container to the office to hold in reserve in case of an emergency. This medication will be stored along with the emergency supplies.

Please complete the information section below, detach, and enclose it in your child's emergency food pack. Packs should be brought to your child's classroom on the first day of school!

Suggest items to pack:

- Your child's favorite non-perishable food item(s)
 - **Please no nut or seed items**
- Beef jerky
- Sealed dried fruits or fruit rolls
- "pop-top" cans of pudding, fruit, tuna, etc.
- Heavy duty plastic spoons

Optional comfort items:

- Emergency "space" blanket (can be purchased at REI or sporting good stores)
- Family picture
- Small flashlight
- Comforting note from parents to child (strongly recommended)

It is important to do this for your child!

Please remember to bring your emergency food pack on the first day of school!

Complete the bottom portion and put inside the earthquake pack
